

**YANMAR**

Andy Wright

# Yanmar Saves Me 50,000 litres of Fuel A Year

Dive operator Andy Wright had the ideal dive charter boat but his tired old 8 vee 4 cycle engines were expensive to run, burning up 650 litres of diesel every day.

"We go to sea 300 days a year with divers; in a year all 10,000 of them. I simply can't afford to have any reliability issues with the Calypso charter operation, let alone engines with high operating costs.

After re-powering Calypso II with a pair of Yanmar 6HYM-ETE engines, my fuel costs have been slashed from 80 litres per hour per engine to 60 litres per hour – that's a saving of 25% or 50,000 litres of diesel a year.

I love the Yanmar brand. It has a great name and I like the fact the 6HYM series is a purpose built marine engine, not a derivative of a truck engine.

Yanmar is the best brand, the best configuration and for my application, the cheapest. My Yanmars just keep running and running. You can't kill em!"

## Andy Wright - Calypso Charters

### Yanmar 6HY series 412 - 700 mhp (303 - 515 kW)

- Low Noise, Low Vibration & typical Yanmar reliability
- 500hr service intervals
- Mechanical Fuel System for simplicity and reliability
- Low fuel costs and low emissions
- Meets IMO regulations
- Sold and serviced by Australia's largest selling brand of diesel engine
